DAY 01

binary name:	index.html
repository name:	repository
repository rights:	ramassage-tek
language:	EN-FR
group size:	1

> (!) • Your repository must contain the totality of your source files, but no useless files (binary, temp files, obj files,...).
>
> • All the bonus files should be in a directory named *bonus*.

Introduction

Materialize

Today, you will be introduced to CSS frameworks.
Look for responsive design as it will be valued as bonus. All HTML pages must respect the basic HTML structure.
http://materializecss.com/
https://github.com/Dogfalo/materialize

Subject

Materialize

Using the materialize CSS framework, you need to reproduce one of the following mock-ups :

Batman

Materialize

Unicorn
